Professional working

Education

Himalayan College of Management
Bachelor in Computer Science (Hons)
3rd Year Running

Scottish Qualification Authority
Diploma in Computing
April 2021 – July 2023

Experience

- Feb 2026 – June 2026 Baluwatar
 Data Entry Officer
Sojojob
Managed and screened incoming IT resumes, executing strict data cleaning and quality assurance protocols to maintain precise recruitment records and accelerate the screening process.
- Sep 2025 – Nov 2025 Baneshwor
 Front End Developer
Janaki soft
Utilized MVC architecture in PHP and Laravel to translate complex Figma wireframes into responsive, dashboard interfaces, delivering production-ready reusable code.
- Nov 2024 – Apr 2025 Jamal
Back End Developer
Dursikshya edu.np
Built a headless backend service using Django REST Framework (DRF) and Express.js, optimizing database performance and configuring asynchronous background tasks for seamless order processing.

Live projects

Full Stack E commerce Platform

A scalable web store built with a decoupled backend architecture, optimized static file asset delivery, and cloud-hosted media management for zero-downtime shopping.

onrender.com

Bootstrap Dashboard Templates

Figma UI Kit and Bootstrap templates built for a wide variety of use cases. Reusable components for faster workflows.
